REASONS FOR ALLOWANCE

1. Claims 1-21 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The Applicant arguments filed on 3/5/2007 with respect to claims 1-15 and 19-21 are persuasive. The feature of independent claims 1 and 21 directed towards allowable subject matter is the feature wherein the upper light shielding film is positioned between the data lines and the pixel electrodes, the upper light shielding film defining at least the corners of pixel opening, and the scanning lines, the data lines, and the capacitors, being formed in the light shielded region. The feature of independent claim 19 directed towards allowable subject matter is the feature wherein a shielding layer provided between the data lines and the pixel electrodes, and a lower light shielding film formed at a layer lower than the semiconductor layer of the thin-film transistors, and the lower light shielding film defining at least the corners of pixel opening regions, and the scanning lines, the data lines, the capacitors, and the shielding layer being formed in the light shielded region. As argued by the Applicant, Shiota, does not constitute prior art. Further, none of the other prior art of record suggests or teaches of the claimed invention. Therefore said features of claims 1, 19, and 21 in combination with the other limitations of the claims makes claims 1-21 allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **David L. Lewis** whose telephone number is **(571) 272-7673**. The examiner can normally be reached on MTWTHF from 8 to 5.
